

COVID Diaries Local History Project

We are living through truly historic times!

The **COVID19 Pandemic** has changed our lives and we have the opportunity to capture what is happening first hand, so that those who come after us will know how it all felt at the time.

Three Rivers Museum Trust have asked local history groups to collect personal experiences of the COVID19 Pandemic.

What was it like living through the pandemic ?

How did you feel ? What did you do ?

What couldn't you do ?

For more information and to take part

please contact Abbots Langley Local History Society on:

alcoviddiaries@gmail.com

We very much hope that you will be able to participate in the
COVID Diaries Project.
